The German Examiner cited German reference 4107440 C1 as showing all of the features of claim 1 with the exception of the shut-off device for shutting off the forward or rearward flow of the medium when the forward flow pressure drops significantly or drops to zero. German reference 3039380 Al was cited as showing such a shutting-off device.

The remaining two references were not applied against the claims by the German Examiner.

The required fee in the amount of \$180.00 is enclosed.

Respectfully submitted,
